Treated Glass

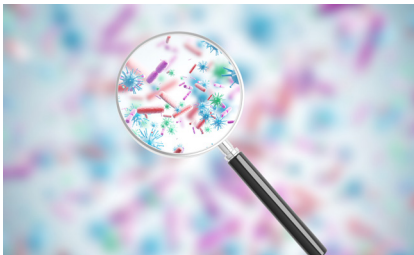

HMI Offers Advanced Invisible Protection

HMI's C.10 Glass Protectant with EnduroShield® technology is the premium choice for maintaining high-end shower enclosures and other glass products.

INVISIBLE PROTECTION, VISIBLE CLEANLINESS

C.10® powered by EnduroShield® is an ultra-thin transparent glass coating that completely adheres to the surface and provides protection that will repel water and make the glass easy to clean.

IT'S NOT JUST WHAT YOU SEE

Untreated glass is porous and as a result absorbs mineral deposits and soap scum, making it more and more difficult to clean overtime. C.10® is eco-friendly, eliminating the need to clean with harsh chemicals.

AT WORK FOR YOU, 24/7

C.10® reduces your cleaning time by up to 90%, giving you back precious moments to relax and enjoy your shower, making your cleaning routine significantly easier and more enjoyable.

1 APPLICATION
Lasts 10+ Years

EXCEPTIONAL BENEFITS THAT LAST

You have taken great care to create your sanctuary space. Choosing C.10® protection ensures your shower glass will stay beautiful for years to come.
