INNOVATORS IN GLASS

## HMI Offers Advanced Invisible Protection

HMI's C.10 Glass Protectant with EnduroShield® technology is the premium choice for maintaining high-end shower enclosures and other glass products.

### INVISIBLE PROTECTION, VISIBLE CLEANLINESS

C.10® powered by EnduroShield® is an ultra-thin transparent glass coating that completely adheres to the surface and provides protection that will repel both water and oil-based stains.

### IT'S NOT JUST WHAT YOU SEE

Untreated glass is porous and as a result absorbs mineral deposits and soap scum, making it more and more difficult to clean overtime. C.10® is eco-friendly, eliminating the need to clean with harsh chemicals.

### AT WORK FOR YOU, 24/7

EnduroShield reduces your cleaning time by up to 90%...with just basic cleaning, your shower will look just as good in 10 years, as it does today...giving you back precious moments to actually enjoy your shower!

### EXCEPTIONAL BENEFITS THAT LAST

You have taken great care to create your sanctuary space. Choosing C.10® protection ensures your shower glass will stay beautiful for years to come.
