

HMI Heavy Glass Hinges & Hardware

Our *in house* line of the classics your frameless projects require.

Thoughtfully *engineered* to *perform* and *last*.

Canvas

- Digitally printed glass.
- Ceramic inks resistant to scratching, acid, UV & weather damage.

Cast Glass

- Glass technique in which a piece of glass is kiln-fired onto a mold.
- 11 standard cast options.

Pattern Glass

- Pattern glass is smooth on one side and features a textured pattern on the outside surface.
- 6 standard options.
- Clear glass only. (No low iron)
- Various thicknesses

C.10® Glass Protectant

Most glass configurations available with C.10 powered by EnduroShield.

Limited Lifetime Warranty.

ShowerGuard®

An advanced, permanent layer bonded to glass when it's made. The patented layer doesn't degrade.

Ensures the surface is smooth, even microscopically, so impurities can't embed to cause corrosion and lasting discoloration.

Limited Lifetime Warranty

HMI Essentials

- Curated tools designed & engineered with our trademark attention to quality & detail.
- HMI Install Kits available.
