

UPTOWN | *Swing Shower Doors*

Our Uptown collection bridges the worlds of semi-frameless and frameless shower design. Metal wall jambs offer the ease of installation that traditional framed showers are known for, but the clear polycarbonate strike between the door and panel create a near invisible midline. Look to the stylized Uptown Grand for a header-less option. Perfect for bathroom renovations with fiberglass surround showers, Uptown is an upscale, upgrade in semi-frameless swing door design.
