

Smooth. Safe. Simple.

An innovation in sliding shower design, EURO by HMI *NOW* with soft close design technology.

- Optional upgrade
- Retro fit design
- Compatible with all HMI Platinum bypass units.
(Part numbers PTESE & PTETE)

EURO | *Sliding Shower Doors*

An HMI classic shower enclosure, Euro is a bypass semi-frameless series known for its reliable quality and unassuming aesthetic. This is sliding shower door design that never ages, anchored by our commitment to quality and value.

HMI's EURO Soft Close Design is a natural evolution of one of our most popular products. By eliminating the ability to "slam" a glass shower door closed, soft close technology helps maintain the integrity of the glass - making this an ideal choice for households with active children - or rushing adults!

4 HARDWARE FINISH CHOICES:

Chrome

Brushed Nickel

Oil Rubbed Bronze

Matte Black

“We’re pleased to bring this small yet substantial upgrade to our sliding shower hardware line-up. The EURO has always been an HMI residential favorite. This semi-frameless bypass unit with classic styling is now even more appealing to today’s modern family with the addition of our soft close option.”

- Jason Willis - Director of New Product Development: HMI
